five business areas in a way to provide background knowledge needed for cases study and exams.

 Righting the Wrong: Closing the Gender Gap in Computing Sep 08 2020 We see girls and women everywhere using electronic devices; phones, ta
laptops very proficiently, so what's the problem? It is a real, a serious and a long-standing issue. The number of girls entering and staying
education is still woefully low. Women are still not present at the centre of power where decisions are made determining how electronic
develop. They are in reality mere users. Women in science and technology have always been pushed into the background by means of all s
The stories of how women scientists have suffered the same indignities since the 17th century: gender pay gaps, ridicule, sexist commen
silenced make fascinating and relevant reading. And all this remains true in computing. RIGHTING THE WRONG looks again at the foundatio
computing: mathematics, engineering and, arguably, science and shows how the masculinity of these still pervades computing education a
industry. This pervasiveness lays the groundwork for so much of the on-line abuse girls and women suffer. By drawing attention to the d
recent past Frances encourages readers to become more aware of what continues to this day; she urges them to challenge new develop
put up any longer with being silenced.

approaches to teaching and learning. It includes descriptions of new technologies and systems and how they can be used, as well as guic
software, and activities to engage pupils in their own learning.

 Transnationalism, Diaspora and Migrants from the former Yugoslavia in Britain Sep 20 2021 The geo-political area of what once constituted
Yugoslavia has been a region of significant migration since the 1960s. More recently, the conflicts in the region were the catalysts for m
displacements of individuals, families and whole communities. Thus far, there has been a gap in the literature on the qualitative experience
from the former Yugoslavia through the twin theoretical lenses of transnationalism and diaspora. This book offers an ethnographic accou
migration and life in diaspora of migrants originating from the former Yugoslavia and now living in Britain. Concepts such as the developm
cultural beacons and diasporic borrowing are introduced through the ways in which migrants from the region form community associatio
articulate - or avoid - such affiliations. The study examines the ways in which the experience of migration can be shaped by the socio-pol
of departure and arrival, and considers how the lexicon associated with the act of migration can weave itself into the identities of migrar
which the transnational and diasporic spaces are dictated by certain narratives, for example the allegory of dreaming and the language of
explored. It also investigates migrants' ongoing connection with the homeland, considering social and cultural elements, their reception in
British media representations of Yugoslavia. Contributing to the knowledge on the experiences of migrants from a part of the world whic
under-researched in terms of its migrating populations, this book will be of interest to students and scholars of Political Geography, Socia
Eastern European Politics, and Migration and Diaspora studies.
