Working with

Language May 05 2020

CONTRIBUTIONS TO THE SOCIOLOGY OF LANGUAGE brings to students, researchers and practitioners in all of the social and language-related sciences carefully selected book-length publications dealing with sociolinguistic theory, methods, findings and applications. It approaches the study of language in society in its

broadest sense, as a truly international and interdisciplinary field in which various approaches, theoretical and empirical, supplement and complement each other. The series invites the attention of linguists, language teachers of all interests, sociologists, political scientists, anthropologists, historians etc. to the development of the sociology of language.

[An Introduction to EU Competition Law](#) Feb 11 2021

Succinct and concise, this textbook covers all the procedural and substantive aspects of EU competition law. It explores primary and secondary law through the prism of ECJ case law. Abuse of a dominant position and merger control

are discussed and a separate chapter on cartels ensures the student receives the broadest possible perspective on the subject. In addition, the book's consistent structure aids understanding: section summaries underline key principles, questions reinforce learning and essay discussion topics encourage further exploration. By setting out the economic principles which underpin the subject, the author allows the student to engage with the complexity of competition law with confidence. Integrated examples and an uncluttered writing style make this required reading for all students of

the subject.

**Modern Genre
Theory** Jan 31 2020
Since Aristotle,
genre has been one
of the fundamental
concepts of literary
theory, and much of
the world's
literature and
criticism has been
shaped by ideas
about the nature,
function and value
of literary genres.
Modern
developments in
critical theory,
however, prompted
in part by the
iconoclastic
practices of modern
writers and the
emergence of new
media such as film
and television, have
put in question
traditional
categories, and
challenged the

assumptions on
which earlier genre
theory was based.
This has led not just
to a
reinterpretation of
individual genres
and the
development of new
classifications, but
also to a radically
new understanding
of such key topics
as the mixing and
evolution of genres,
generic hierarchies
and genre-systems,
the politics and
sociology of genres,
and the relations
between genre and
gender. This
anthology, the first
of its kind in
English, charts
these fascinating
developments.
Through judicious
selections from
major twentieth-
century genre
theorists including
Yury Tynyanov,
Vladimir Propp,

Mikhail Bakhtin, Hans Robert Jauss, Rosalie Colie, Fredric Jameson, Tzvetan Todorov, Gérard Genette and Jacques Derrida, it demonstrates the central role that notions of genre have played in Russian Formalism, structuralism and post-structuralism, reception theory, and various modes of historical criticism. Each essay is accompanied by a detailed headnote, and the volume opens with a lucid introduction emphasising the international and interdisciplinary character of modern debates about genre. Also included are an annotated bibliography and a glossary of key

terms, making this an indispensable resource for students and anyone interested in genre studies or literary theory. [The Lost Beliefs of Northern Europe](#)
Jan 13 2021
Fragments of ancient belief mingle with folklore and Christian dogma until the original tenets are lost in the myths and psychologies of the intervening years. Hilda Ellis Davidson illustrates how pagan beliefs have been represented and misinterpreted by the Christian tradition, and throws light on the nature of pre-Christian beliefs and how they have been preserved. [The Lost Beliefs of Northern Europe](#)

stresses both the possibilities and the difficulties of investigating the lost religious beliefs of Northern Europe.

Sparking Student

Creativity Mar 15 2021 Teaching isn't merely transmitting knowledge to students; it's also about teaching students to approach learning in engaging and unexpected ways. In *Sparking Student Creativity: Practical Ways to Promote Innovative Thinking and Problem Solving*, author and researcher Patti Drapeau explores and explains research related to creativity and its relevance in today's standards-based, critical thinking-focused classroom. The book vividly and comprehensively shows * How creative lessons can meet and extend the expectations of curriculum standards such as

the Common Core State Standards, * How to incorporate creativity and assessment into daily classroom practices, * How to develop a "Creativity Road Map" to guide instruction, and * How to design lessons that prompt and support creative thinking. In addition, the book includes 40 "grab and go" ideas that infuse lesson plans with a spirit of exploration. No matter what grade levels or content areas you teach, *Sparking Student Creativity* will help you to produce creative lesson components that directly address critical content, target specific standards, and require thoughtful

products from students as they grow into independent learners and become successful students and adults.

Introduction to the Study of Religion

Jan 25 2022 Why do people study religion? How have they studied it in the past? How do we study religion today? Is the academic study of religion the same as religious education? These and many other questions are addressed in this engaging introduction to the discipline of religious studies, written by two experienced university teachers. The authors have crafted this book to

familiarize novice students with key concepts and terminology in the study of religion. More advanced students will find a varied array of theoretical perspectives and methodological approaches to the field. Topics include: definitions of religion perspectives in the study and teaching of religion how religion began to be studied: traditional perspectives - philosophical and theological how people experience religion: perspectives in the study of religious consciousness and perception - phenomenological and psychological studying religion within communities: Social

and cultural perspectives - anthropological, sociological, political and economic judging religion: critical perspectives -feminist approaches, the interaction of popular literature and religion contextual perspectives - historical and comparative. The book encourages students to think critically about the theories and methods presented. Students will find arguments for the strengths and limitations of these approaches, understand connections among religious studies and other intellectual movements, and develop their own

ideas of how they might want to go about the study of religion. Summary boxes, a timeline, a glossary and other pedagogic aids help students grasp key concepts, along with a companion website at www.sastor.com.

This collection examines the nature and value of altruism as a moral virtue, restoring it to its proper place at the centre of our moral and political thinking. The first five essays in the collection explore the relationship between altruism and other moral concepts such as self-interest, autonomy, community and impartiality. The five essays in the second part show how altruism is invoked in practical moral problems,

including aid to developing countries, the market for human body parts, multiculturalism and the politics of recognition, and medical ethics. Through these discussions, the central role of altruism in moral thinking is brought into sharper focus. **Absorbing Sets in Infinite-dimensional Manifolds** Oct 22 2021 *School Didactics And Learning* Jun 29 2022 This text presents a reflective theory of school didactics, incorporating German and Nordic research traditions in the theory of didactics, together with Anglo-American research on teaching
