**Unfulfilled Union, 4th Edition** Jan 27 2022 In *Unfulfilled Union* Garth Stevenson examines such topics as the origins and objectives of Confederation and the BNA Act of 1867, the interpretation of Canada's federal constitution by the courts, the impact of economic regionalism and Quebec nationalism, financial relations between the federal and provincial levels of government, the consequences of federalism for economic policy, the sources of federal-provincial conflicts and the means to resolve them, and the lengthy but inconclusive efforts to reform the constitution through federal-provincial agreement, particularly since Quebec's Quiet Revolution in the 1960s. Although institutional factors such as the defects of the original constitution and the sometimes questionable interpretations of the Judicial Committee of the Privy Council are given due attention, Stevenson emphasizes the political economy of Canada, including its relationship with the United States, and the vitality of Quebec nationalism as the major reasons Canada has not achieved the same level of centralization and stability as other federations in the industrialized world. This updated edition of *Unfulfilled Union* includes a new introduction that discusses the extensive changes that have taken place in Canadian federalism since that time.

**THE NURSE MANAGER'S SURVIVAL GUIDE, 4TH EDITION** Apr 05 2020 Nurses are already nurse managers. They must manage patient caseloads and care plans as well as supervise aides, technicians, and other care providers. But moving from this type of organic management to a defined nurse manager role is not a natural progression. Nurse managers must command a vast, diverse, and robust skill set, and those skills must first be defined, explained, and operationalized for success. In an environment that offers new managers little support, where do they turn? The *Nurse Manager's Survival Guide* (4th Ed.) provides an overview of a nurse manager's major roles and responsibilities—all the fundamentals needed for success in one easy-to-use, consolidated, practical reference. From tips on building the right team to budgeting basics, time-management tools, and advice on taking care of one's self (and their team), author Tina Marrelli supplies the resources nurse managers need to excel in day-to-day operations.

**Textbook of Occupational Medicine Practice** Feb 02 2020 This fourth edition continues to provide a link between occupational health and clinical practice. It covers target organ systems that can be affected by hazardous exposures in workplaces, and it focuses on the clinical presentations, investigations and management of affected individuals. We have retained consideration of some special issues relevant to occupational medicine practice in this new edition. The main emphasis continues to be prevention of disease and early detection of health effects. This edition of the book has been updated to include new materials, topics, and references. We have retained a few of the previous case studies and illustrations, and introduced several new ones. There are new chapters on audit and evidence-based practice and on occupational cancer. We trust that this edition addresses many of the recommendations that were provided by readers of the previous edition. We have again asked international experts to author many of the chapters. Some of the authors are from Asia, and others from the US, UK, the Middle East and Australia. All the authors will have either clinical or academic experience in occupational medicine practice. The book will be of interest to medical practitioners, especially those in primary care and doctors intending to pursue a career in occupational medicine. **SOCIAL WORK IN JUVENILE AND CRIMINAL JUSTICE SYSTEMS (4th Ed.)** Nov 24 2021 *Social Work in Juvenile and Criminal Justice Systems* sets the standard of care for mental health treatment and the delivery of social services to crime victims, juvenile and adult offenders, and their families. The chapters, all authored by experts in the field and all committed to the mission of social justice, are written with the clear understanding that we cannot study criminal justice in a vacuum. Therefore, a major focus of the book is on the renewed growing sense of the profession's obligation to social justice. Each chapter interconnects with the various components of juvenile and criminal justice. Another prominent aspect of the book is that it is strength-based. It views those involved in the criminal and juvenile justice systems as individuals rather than inmates or criminals, each with unique positive talents and abilities. The book is divided into four sections. The first section discusses forensic social work, including crime and delinquency theories, trends, and ethical issues. The second section prepares social workers for practice in correctional institutions and explores crisis intervention with victims of violence, reentry of adult offenders in society, and aging in prison. The third section covers assessment and intervention in child sexual abuse, mental health and substance abuse, interpersonal violence and prevention, child welfare and juvenile justice. The final section presents an overview on social work in the twenty-first century, which includes restorative justice and the justice system, new ways of delivering justice, domestic violence, neighborhood revitalization, race and ethnicity, and social work practice with LGBTQ offenders. This book will be the best single source on social work in criminal justice settings and will prove to be an invaluable resource for the many professionals who have responsibility for formulating and carrying out the mandates of the criminal justice system.
