[Love Letters: Vita and Virginia](#) Mar 06 2021 'I am reduced to a thing that wants Virginia. I composed a beautiful letter to you in the sleepless nightmare hours of the night, and it has all gone. I just miss you...' At a dinner party in 1922, Virginia Woolf met the renowned author, aristocrat - and sapphist - Vita Sackville-West. Virginia wrote in her diary that she didn't think much of Vita's conversation, but she did think very highly of her legs. It was to be the start of almost twenty years of flirtation, friendship, and literary collaboration. Their correspondence ended only with Virginia's death in 1941. Intimate and playful, these selected letters and diary entries allow us to hear these women's constantly changing feelings for each other in their own words. Eavesdrop on the affair that inspired Virginia to write her most fantastical novel, Orlando, and discover a relationship that - even a hundred years later - feels radical and relatable. History of Political Ideas, Volume 8 Jul 18 2019 Reaching into our own time, Crisis and the Apocalypse of Man confronts the disintegration of traditional sources of meaning and the correlative attempt to generate new sources of order from within the self. Voegelin allows us to contemplate the crisis in its starkest terms as the apocalypse of man that now seeks to replace the apocalypse of God. The totalitarian upheaval that convulsed Voegelin's world, and whose aftermath still defines ours, is only the external manifestation of an inner spiritual turmoil. Its roots have been probed throughout the eight volumes of History of Political Ideas, but its emergence is marked by the age of Enlightenment. In our postmodern era, discussions of the collapse of the "enlightenment project" have become commonplace. Voegelin compels us to follow the great-souled individuals who sought to go from disintegration of the present toward evocations of order for the future. Such thinkers as Comte, Bakunin, and Marx suffered through the crisis and fully understood the need for a new outpouring of the spirit. They resolved to supply the deficiency themselves. As a consequence they launched us irrevocably on the path of the apocalypse of man. One of the great merits of Voegelin's analysis is his exposition of the pervasive character of this crisis. It is not confined to the megalomaniacal dreamers of a revolutionary apocalypse; rather, echoes of it are found in the more moderate Enlightenment preoccupation with progress to be attained through application of the scientific method. Faith in the capacity of instrumental reason to answer the ultimate questions of human existence defined men such as Voltaire, Helvétius, Diderot, D'Alembert, and Condorcet. It remains the authoritative faith of our world today, Voegelin argues, demonstrated by our continuing inability to step outside the parameters of the Enlightenment. Are we condemned, then, to oscillate between the rational incoherence of a science that never delivers on its promises and a now discredited revolutionary idealism that wreaks havoc in practice? This is the question toward which Voegelin's final volume points. While not direct, his response is evident everywhere. Crisis and the Apocalypse of Man could have been written only by a man who had reached his own resolution of the crisis.

There is a linked table of contents to all 24 book at the beginning of the volume, as well as a fully descriptive table of contents at the beginning of each book. The History of Protestantism' by J. A. Wylie, is an incredibly inspiring work. It pulls back the divine curtain and reveals God's hand in the affairs of His church during the Protestant Reformation. Through the centuries, the sacrifices and victories of God's faithful people have often been obscured and forgotten. Now once again, you can read the fascinating story of how truth triumphed over error, principle over falsehood, and light over darkness. While Wylie is intent on telling the story of Protestantism he in many places travel back to the middle ages and picks up the story and heads forward to the reformation of the sixteenth century. When reading Wylie is thrilled to see just that men and woman stood for truth and in doing so made a way for truth to prevail in the end. Wylie's ability as a scholar and author are apparent in every chapter of these seas. Anyone interested in knowing about the history of the Christian Church would be truly in lighted by reading this work of Dr. Wylie on the history of Protestantism'. His disposition to use the pen as a mighty "Sword of the LORD" (Judges 7:18) is evidenced through out this work. Conquest and Christianization Oct 01 2020 Following its violent conquest by Charlemagne (772 – 804), Saxony became both a Christian and a Carolingian region. This book sets out to re-evaluate the political integration and Christianization of Saxony and to show how the success of this transformation has important implications for how we view governance, the institutional church, and Christian communities in the early Middle Ages. A burgeoning array of Carolingian regional studies are pulled together to offer a new synthesis of the history of Saxony in the Carolingian Empire and to undercut the narrative of top-down Christianization with a more grassroots model that highlights the potential for diversity within Carolingian Christianity. This book is a comprehensive and accessible account which will provide students with a fresh view of the incorporation of Saxony into the Carolingian world.

Vita Nova Mar 26 2020 Receptient, 2013 Guggenheim Fellowship Dante ' s Vita Nova (circa 1292 – 1295) depicts the joys and sorrows, the discoveries and conflicts of Dante ' s early love for Beatrice—who would achieve later and even greater fame in *Commedia*—starting with his first sighting of her and culminating in his prevision of Beatrice among the beatified in heaven. Award-winning translator and poet Andrew Frisardi channels the vigor and nuance of Dante ' s first masterpiece for a modern audience. The " little book, " as Dante calls it, consists of thirty-one lyric poems—mostly sonnets—embedded in a prose narrative, which both recounts an apparently autobiographical set of events also evoked in the poems and offers analysis of the poems ' construction in the medieval critical tradition of *divisio textus*, or division of the text. Dante selected poetry he had written before age twenty-eight or so and wrote the prose to shape it into a story. The poems anthologize Dante ' s growth as a poet, from the influence of his earliest mentors to the stylistic and thematic breakthroughs of his poetic coming-of-age. The interplay of poetry and prose in *Vita Nova*, along with the further distinction in the latter between autobiography and critical divisioni, presents a particular challenge for any translator. Frisardi faithfully voices the complex meter and rhyme schemes of the poetry while capturing the tone of each of the prose styles. His introduction and in-depth annotations provide additional context for the twenty-first-century reader.

Vita & Virginia May 20 2022 A double biography of Virginia Woolf and Vita Sackville-West, their friendship and love affair. Virginia Woolf is one of the world ' s most famous writers – a leading light of literary modernism and feminism – and a British icon. During the 1920s she had a passionate affair with a fellow author, Vita Sackville-West, and they remained friends until Virginia ' s death in 1941. The hero of Virginia ' s novel Orlando was modeled on Vita and the book has been described as ' one of the longest and most charming love letters in history ' . That ' s on top of the more than 500 letters they wrote to each other. Vita & Virginia is the extraordinary account of the work, friendship and love affair of two prolific novelists, who came to redefine conventions of femininity, sexuality, art and politics for the modern world. The cultural legacies of these formidable women, enduring icons of sexual equality and female emancipation, proliferate around us today – in fashion and television, film and literature. In this scrupulously researched examination of the pair's long friendship, the National Trust draws on their poetry and treasured correspondence to tell the story of this thoroughly modern affair. Both novelists have become closely associated with the National Trust. Vita is most famous today as the co-creator of Sissinghurst, one of the most influential and visited gardens in the world, while Monk ' s House, Virginia ' s retreat and inspiration, was a celebrated haunt of the Bloomsbury Group, that influential set of artists, thinkers and writers who lived in squares and loved in triangles.
